Trung Nguyen (Kai Nguyen)

Full-Stack Developer

✉ trungnguyen1221999@gmail.com | 🔗 GitHub: trungnguyen1221999

Summary

Full-stack developer with 5+ years running eCommerce businesses, experienced in building web applications independently. Skilled in **React**, **Next.js**, **Node.js**, **MongoDB**, **TailwindCSS**, **Styled Components**, **JWT authentication**, capable of handling frontend and backend with practical business insight.

Skills

Frontend: React, **Next.js**, **TypeScript**, **JavaScript**, **TailwindCSS**, **Styled Components**
Backend: Node.js, **MongoDB**, **MySQL**, **RESTful API**

Projects

All projects developed independently:

Blikit eCommerce Platform: Fully functional eCommerce website with admin dashboard, **JWT authentication**, email verification, forgot password with code verification, resend verification email. Built with **React**, **Next.js**, **TailwindCSS**, **Node.js**, **MongoDB**.

- Source Code: [Blinkit Clone](#) – Preview Website: (link)

Shopee Clone: Full-stack eCommerce platform with **JWT authentication**. Built with **React**, **TypeScript**, **Styled Components**, **Node.js**, **MongoDB**.

- Source Code: [Shopee Clone](#) – Preview Website: ([link](#))

Kai's Restaurant: Online reservation website with admin dashboard for bookings, menu, categories management. Built with **JavaScript**, **React**, **TailwindCSS**, **Node.js**, **MongoDB**.

- Source Code: [Restaurant Fullstack](#) – Live Preview: [Frontend](#) – [Backend API](#)

    Note: Free hosting requires opening both frontend and backend links.
